

Topic:	Animals including Humans	Year:	1	Term:	Autumn
--------	--------------------------	-------	---	-------	--------

Key Vocabulary

- sight** Your eyes let you see all the things around you.
- hearing** Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.
- touch** Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it!
- taste** Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet. You might have some tastes you like and some you don't.
- smell** You smell using your nose. Your nose can tell if things smell nice or not.

Key Vocabulary

- amphibians** Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin.
- birds** All birds have a beak, two legs, feathers and wings.
- fish** Fish live and breathe under water. They have scaly skin, fins to help them swim and they breathe through gills.
- mammals** Mammals are animals that breathe air, grow hair or fur and feed on their mother's milk as a baby.
- reptiles** All reptiles breathe air. They have scales on their skin.
- carnivore** Animals that mostly eat other animals (meat) are carnivores.
- herbivore** Animals that only eat plants are herbivores.
- omnivore** Animals that eat both plants

Mammals			
human	mouse	dog	cow
Birds			
penguin	chicken	flamingo	robin
Fish			
goldfish	tuna	shark	eel
Reptiles			
snake	tortoise	lizard	alligator
Amphibians			
frog	toad	newt	salamander

amphibian	bird	fish	reptile
mammal	carnivore	omnivore	herbivore
