

Topic: Animals including Humans Year: 1 Term: Autumn

Key Vocabulary

- sight** Your eyes let you see all the things around you.
- hearing** Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.
- touch** Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it!
- taste** Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet. You might have some tastes you like and some you don't.
- smell** You smell using your nose. Your nose can tell if things smell nice or not.

In this unit about Animals Including Humans children in Year 1 will:

- Learn about the parts of the human body and have the opportunity to explore the five senses through a simple investigation.
- Learn that animals, including humans have offspring, which grow into adults.
- Explore the basic needs of animals, including humans, for survival (which are food, air and water).
- Describe the importance for humans of exercise and eating the right amounts of different food types.
- Identify and name a variety of common animals including fish, amphibians, reptiles, mammals and birds
- Describe the structure of a variety of common animals (fish, amphibian, reptiles, birds and mammals including pets.
- Identify and name a variety of common animals that are carnivores, herbivores and omnivores.

Key Vocabulary

- amphibians** Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin.
- birds** All birds have a beak, two legs, feathers and wings.
- fish** Fish live and breathe under water. They have scaly skin, fins to help them swim and they breathe through gills.
- mammals** Mammals are animals that breathe air, grow hair or fur and feed on their mother's milk as a baby.
- reptiles** All reptiles breathe air. They have scales on their skin.
- carnivore** Animals that mostly eat other animals (meat) are carnivores.
- herbivore** Animals that only eat plants are herbivores.
- omnivore** Animals that eat both plants

amphibian	bird	fish	reptile
mammal	carnivore	omnivore	herbivore
