

Reception Class Home Learning Plan Weekly expectation 18.05.20-22.05.20

Please find below this week's Home Learning for Reception Class. We are using online learning provided by Oak National Academy and phonics lessons delivered by the Department for Education (https://www.youtube.com/channel/UCP_FbjYUP_UtldV2K_-niWw/videos)

Reading

Read with your family every day for 30 minutes.

Read your keyring words and if you have access to the internet then head to www.phonicsplay.co.uk to play our tricky word trucks – phase 2 and 3. If your child can read them then record a video of them reading them and post it on Tapestry! I will then send you the next phase. Phase 4 is also on the Phonics Play website 😊

Please continue to use the Oak National Academy site to access daily English, Maths and Foundation subject lessons. You can find the lessons here: <https://www.thenational.academy/> To access the lessons, click on 'Online Classroom' > 'Schedule' > 'Reception' and select the day. If you feel that your child is not engaging with this then you can head to whiterose maths or classroom secrets for activities. You can also message Mr Salmon on Tapestry and he will send you activities for your child.

Remember your magic five when writing and use your phonics skills 😊

Can you have a go at writing the months of the year? Try doing them independently and then have a go at spelling them by using the look, say, cover, write technique. Perhaps you could write the names of your family members next to the month they were born in.

Months of the Year

This week we would like the children to have a go at learning their months of the year and putting them in order. You could FaceTime all of your family and ask them when their birthday is. Then you could make a birthday chart with all of the birthdays on it. Perhaps you could draw a picture of something that you do in each month. January – play in the snow, February – Valentines Day etc.

Here is a great song to have on in the background and to start the learning week with.

<https://www.youtube.com/watch?v=omkuE6Wa5kQ>

I have also added some resources for you to use if you wish on Tapestry. If you are struggling to download or would like hard copies please let me know and we can print them off for you.

Find out about someone special in your family – try and make it someone you don't live with so you can phone or video call them. Ask them when their birthday is and then ask them to tell you about their favourite ever birthday and why. You could then draw them a picture and send it to them 😊

Art – Explore shape and patterns this week. A lovely way to do this is by putting masking tape on the floor and then chalking in the gaps...then take the tape off to see the end result.

There are lots more ideas online if these don't tempt you! You could go on a shape hunt around the house.

PE - Use Joe Wicks HIIT workouts for kids on YouTube to perform a routine at home.

Can you make skittles with old recycled bottles? Collect 10 and write numerals or number sentences on them, e.g. $4+3=...$ Children need to identify the number of the skittles they knock down!

We would love to see your home learning in action so don't forget to tweet pictures of your work to @stmatprimary and add it to Tapestry.
